

Personalized Tax Preparation

OK
CPW

Since my retirement as a 30 year firefighter 3 years ago I have worked for Charles Dolan Tax Service. Charles Dolan is a licensed tax preparer who has been in business for over 30 years. His vast knowledge of the tax laws has benefited thousands of people. His tax preparations are done by real people not computers, this assures that you receive the most the law allows. There are deductions that could be claimed in more than one area of the tax forms. It is important to know which one will benefit each individual and to make those entries in the appropriate place. This is something computer programs don't always do.

Charles Dolan is well versed in public safety employees allowed deductions and currently does many Louisville and Jefferson County Firefighters and Police Officers taxes.

As shown below you will see that his tax preparation fees are very competitive. He is located across from Jefferson Mall.

I recommend his service. I know you will get the highest refund allowed by law.

Sincerely,

Jerry Oliver
